

► Nedbank Student Loans

Unlock your career potential with a student loan.

With a Nedbank Student Loan, we lend you the one thing every student needs the most – a hand in getting that qualification so you can thrive tomorrow. Our student loans are designed to meet your individual needs so that you worry less and focus more on what matters the most – your studies.

see money differently

NEDBANK

Now that you are ready to start moving towards your future goals, here's what you need to know about the Nedbank Student Loan:

- Loans are offered to both full-time and part-time students.
- You get a great interest rate based on your performance.
- We will customise your repayments to suit your financial needs.
- We offer competitive credit life cover in the case of death or disability.
- You get a loan that covers your studies, accommodation, books and study-related equipment. If you need specific study-related equipment, you need a letter from your tertiary institution to confirm this.

To apply, you will need the following:

- For first-year applications, a matric certificate, if you're already a student, your previous college or university exam results.
- Proof of registration at a tertiary institution that is accredited by the South African Qualifications Authority (SAQA).
- An invoice or statement for university fees, textbooks and accommodation (for campus or university-accredited accommodation only).

Important notes about accessing your loan:

- You have to apply for each year of your studies.
- You will need to provide proof of your results for the previous academic year.
- If you are a full-time student or still busy with your internship or articles, your guarantor will need to pay only the monthly interest on your loan. You can then start repaying your loan amount once you have completed your studies. For part-time students, repayments are made up of the loaned amount and its monthly interest from the start.

To apply:

- Visit www.nedbank.co.za/studentloans.
- Scan the QR code.
- Visit a Nedbank branch near you.
